

ORANGE LINE

»» ORANGE LINE AT A GLANCE

The Orange Line is an approximately 21-mile light rail link with 22 stations, running from North Lamar Transit Center (183 & N. Lamar) along the North Lamar/Guadalupe corridor, UT campus, downtown to Lady Bird Lake and along South Congress to Stassney Lane.

»» DOWNTOWN TRANSIT TUNNEL

The Downtown Transit Tunnel can separate light rail vehicles from downtown traffic, allowing service to move faster, safer and more reliably through downtown benefiting all system users.

»» INCREASED FREQUENCY AND FASTER TRAVEL

The Orange Line will operate every 10 minutes throughout most of the day.

This means you'll spend less time waiting for transit and more time where you want to go.

»» MORE CONNECTIONS

The Orange, Blue and Gold Line corridors are being designed to maximize connections to where you want to go.

The Orange Line will connect to the larger transit system, including the Red, Blue and Gold Lines, as well as MetroRapid and MetroBus routes.
