

» GREEN LINE AT A GLANCE

The Green Line is proposed along Capital Metro's existing freight line between Austin and Elgin. Improvements would include developing transit stations along the corridor that would provide great places to connect the community to efficient, reliable transit.

» GREEN LINE FACTS

Would provide a new commuter rail service to connect Downtown Austin, East Austin, Manor, Elgin, and Travis and Bastrop counties.

Commuter rail would operate more frequently and move people quickly and efficiently.

» GREEN LINE BENEFITS

Unique opportunities for housing.

The proposed Green Line corridor could provide unique opportunities for more affordable housing options along the corridor.

Increased access to jobs and services.

The proposed Green Line could provide more households with high-capacity transit as an option to travel to jobs and services within Central Austin and beyond.

The Green Line would provide connectivity to the Red Line, other potential high-capacity corridors and Capital Metro's high-frequency bus network.

THE GREEN LINE
WOULD PROVIDE
FASTER, MORE
RELIABLE TRAVEL,
**CREATING GREAT
PLACES WITH GREAT
CONNECTIVITY.**
